# Be exclusive

We offer the option to be exclusive in your area without worrying over competing copies. Let's talk

# Minimize your operating requirements

VRMan stations require only one person to fully operate them all while having free time during the session.

The only operation required is to help your customers put on the VR headset. VRMan will do the rest.

**In Game Tutorial** - VRMan will teach your customer how to play through a story based detailed in-game tutorial

**Automatic Session Timer** - VRMan will smoothly end the session after 10 minutes of gameplay and will invite your customer to buy additional time in order to continue the mission

00:01

**Simple Operating** - Through an intuitive and straightforward operating menu, the operator controls player stations, check their stats, restart or skip parts when needed

# Maximize your space revenue

VRMan saves valuable operating space as it is experienced with your customer sitting down.

With that said, it is fully immersive, highly interactive and with changing 360-6dof in-game environments

# Maximize playing time

Thanks to its storyline, in order for customers to explore all VRMan worlds and defeat all the evil bosses, they would want to replay by buying more playing time. We offer the option of continuing the game from the last session position.

VRMan comes with a displayed-to-all leader board for competitive customers who seek to have their high score proudly presented to all

# Carefree billing system

- ✓ VRMan has a built-in automatic licensing system which counts usage
  - \* Internet connection required
- ✓ Bill will be sent straight to your email at the end of each month
